Children

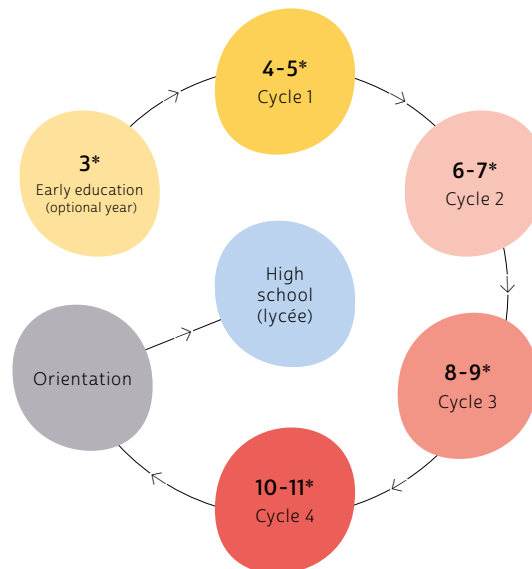

Primary education

According to the law of 6 February 2009 on compulsory education, every child living in Luxembourgish who has reached the age of four before the first of September of the current year must attend school. This obligation extends for twelve consecutive years from the first of September (Art. 7). In all cases where the pupil is enrolled in a school other than the municipality of their residence, parents shall inform the municipality of their residence without delay and no later than eight days after the start of classes by presenting a copy of the enrolment certificate issued by the school (Art. 18).

Primary education (compulsory and free) comprises 9 school years divided into 4 learning cycles. The first cycle includes one year of early schooling, which is voluntary, and two years of pre-school education, which is part of compulsory education.

Each learning cycle usually has a duration of two years.

Steinfort Elementary School

The municipality provides the infrastructure and equipment necessary for basic education.

It is responsible for the school organisation and the distribution of pupils to classes.

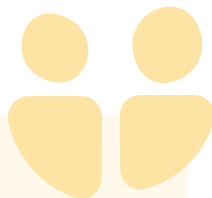

The children are usually integrated into a basic school class in the municipality school of their neighbourhood or sector that is closest to their place of residence.

The municipality informs the parents by mail about the start of their child's compulsory education.

If, for various reasons, parents decide to educate their child in an institution outside the school district or outside their municipality of residence, they must send a school certificate to the Municipality of Steinfort as soon as possible.

School Committee

The School Committee is the body appointed to ensure the management of the school under the supervision of the municipal and national authorities. The task of the School Committee is, among other things, to ensure the organisation and administration of the elementary school and the

cooperation with the parents, together with the regional management and the municipal authorities.

School transport

With school transport, the municipality aims to encourage children to go to school by bus or on foot and to avoid using the car as a means of transport. The two services offered, which are free of charge, are provided in the presence of attendants and are available to pupils in cycles 1 to 4 (with the exception of early schooling):

- School bus
No registration is required to use the school bus. It is sufficient to go to the bus stop.
- Pedibus
Registration for the Pedibus service is MANDATORY.

Both services incorporate safety, health, environmental and social benefits for children.

More information:

steinfort.lu
and in the "Schoulbuet"!

If you have any suggestions for improving our services, please let us know.

Childcare structures

In order to facilitate the reconciliation of work and family life, there are different types of facilities (contracted and private) that care for children under 12 years of age or children who have not yet left primary school:

- Daycare
- Mini daycare
- Maison Relais
(after-school care centre)
- Day Care Centre
- Parental assistant

As a parent, you have the choice of which facility to entrust your child to, depending on how many places are available. However, some facilities only accept children who live in the municipality or attend the school of that municipality.

Maison Relais

Pupils in pre-school education (except early schooling) and primary school in the municipality can use the services of the Maison Relais (after-school care centre), which is managed by the Municipality of Steinfurt.

Registration must be renewed every year (admission during the year is possible depending on the availability of places).

Childcare service voucher

The childcare service voucher (chèque service-accueil - CSA) is aimed at all children aged 0 to 12 years (or older if still attending primary school) whose parents live in Luxembourg or of whom at least one non-resident parent works in Luxembourg and is an EU citizen.

The CSA is a benefit in kind that grants parents reduced rates for education and care services in the field of non-formal education, depending on the availability of places.

The amount of the state contribution (CSA amount) and the amount of the parents' financial contribution are calculated on a case-by-case basis, taking into

account the income situation, the number of children in the household for whom child benefit is received and the number of hours of non-formal education in which the child is cared for.

More information:
cae.public.lu/en.html

Parents who wish their children to benefit from the CSA must join this service at Maison Relais Steinfurt. This membership is free of charge.
